

We're in this together

4 Months Free Licenses + Managed Services

The BCP Package is a 4-month free coverage available to all healthcare providers and qualified companies, and easily deployable within minutes. This free package consists of our ReaQta-Hive licenses and Managed Detection & Response services.

COVID-19 has been putting businesses under enormous stress, big and small alike. All across the world, as Business Continuity Plans (BCP) begin to kick into place, a large portion of the workforce has moved to remote work.

Unfortunately, when the workforce is "outside the corporate firewall", traditional enterprise security measures are mostly ineffective, leaving endpoints exposed to a multitude of threats. Worse still, this period has seen a sharp rise in phishing and social engineering attacks with the attackers using COVID-19 themed mails as an initiator.

In response, we pooled a team of volunteers, from both internal staff and our partners' network, to assemble this BCP Endpoint Defense Package (BCP Package) to help companies secure their remote endpoints.

BCP Endpoint Defense Package

ReaQta-Hive: AI-powered Endpoint Defense Platform designed to defend corporate devices of employees who have transitioned to work-from-home. The lightweight agent can be seamlessly and remotely installed.

Managed Detection & Response (MDR): Proactive monitoring and response service by volunteer SOC team. Our team leverages the ReaQta-Hive platform to detect, investigate and respond to any malicious threats on your remote endpoints.

What can you expect?

- ✓ **EU hours of operation:** From 9AM to 5PM local time (GMT+1), Monday to Friday
- ✓ **Asia hours of operation:** From 9AM to 5PM local time (GMT+8), Monday to Friday
- ✓ **Troubleshooting:** We will respond promptly, as best we can
- ✓ Ransomware protection and other endpoint defense policies
- ✓ We will send you weekly reports when threats are detected

Who is the BCP package for ?

- ✓ Healthcare providers needing support.
- OR -----
- ✓ Companies with at least 25 devices to protect.
 - ✓ Your company must have activated a BCP "work from home policy".
 - ✓ You must activate at least 25 licenses within 24 hours after your account has been created.

Our free coverage will expire automatically on 15 July 2020 (although term may be extended) and no payment is required.
